## SHIFT YOUR RIDING INTO THE NEXT GEAR!

Corser Concepts Motorcycle School is a totally unique riding experience. Our students participate on our specially prepared 125cc, 4-stroke dirt bikes and ride on safely prepared track layouts.

### Why?

The concept behind our school is to enable each of our students to gain confidence and push themselves to the next level by riding in a controlled environment, on light, nimble machines. Students learn all the fundamental skills very quickly, at safe speeds, without the risks of the open road or at the expense of damaging their own motorcycles.

The skills learned at Corser Concepts Motorcycle School are easily transferred to larger dirt or street bikes, making each of our students more accomplished, confident, safer riders.
